Under the responsibility of the Director, Information Technology and Cybersecurity, the Network Administrator will act as a resource person for the IT needs of the company, and will be responsible for:

PRIMARY RESPONSIBILITIES

- Ensure the proper functioning of computer systems (hardware and software);
- Provide technical support to employees (on site, by email and by phone) for all technologies used by the company;
- Identify, track, document and analyze incident or problem resolution activities;
- Document and implement IT procedures and processes;
- Collaborate in the updating and implementation of IT and office automation tools;
- Provide IT training to employees;
- Participate in various IT projects;
- Participate in training to keep up to date on current and emerging technologies.

PROFESSIONAL REQUIREMENTS

- Hold a Diploma of Collegial Studies (D.C.S.) in Computer Science Technology or equivalent;
- Have a minimum of 5 years of experience in a similar position.

KNOWLEDGE & SKILLS

- Strong analytical and problem-solving ability;
- Strong change management ability, excellent time and priority management;
- Focus on customer service and teamwork;
- Initiative, resourcefulness, rigor and discretion;
- Oral and written communication skills in French and English;
- Experience in a multi-site company.

Practical experience in the use of the following technologies will be considered a considerable asset:

- Windows Environment;
- Active Director / Azure AD and Windows permissions management;
- Microsoft Cloud;
- Office 365, Teams, Sharepoint;
- Windows Server, SQL Server, Terminal Server;
- Hyper-V virtualization, VMware;
- Windows event logs and others;
- Network hardware (hubs, switches, routers, etc.) and network management tools;
- Sage 300c (Accpac).

Created in 2008, Axium Infrastructure is an independent employee-owned fund manager dedicated to investing in the infrastructure sector. With over 80 employees, the firm benefits from the extensive infrastructure backgrounds of its team of professionals who have gained, over their career, significant experience acquiring, developing, financing, operating, and managing infrastructure assets. Axium's investment strategy focuses on North American mid-market core infrastructure assets with an active approach to operations and asset management and integration of strong environmental, social and governance ('ESG') principles. Over the years, the firm has built a diversified portfolio of over 170 North American assets and today has over \$8 billion of assets under management.

Axium Infrastructure offers a dynamic, respectful, and collaborative work environment in its three offices located in the core of the financial districts of Montreal, Toronto and New York. The firm also strongly believes in upholding ESG principles and is focused on providing employees a sustainability-oriented workplace. A full benefit package is offered to permanent employees: insurance, pension plan, flexible hours, reimbursement of transport monthly passes, physical activity program and much more!
