AXIUM INFRASTRUCTURE OPENS LONDON OFFICE

Montréal, QC (September 1st, 2022) – Axiom Infrastructure (Axiom) is pleased to announce that it is broadening its geographic footprint. The Axiom Infrastructure mid-market open-end fund platform will now invest in North America and Europe. The group of Funds will be managed in an integrated manner, with the Global Fund investing in the two regional Funds.

Since Axiom's inception in 2009, the company has successfully raised two North America-based core infrastructure funds which now have over C\$9 billion in assets under management (as at June 30, 2022). This new expansion will initially focus on investing in core mid-market assets in Europe.

The firm is opening an office in London, where initially three investment professionals will be assigned to the expansion, supported by the whole Axiom team, with over 90 professionals and support staff. Senior members of Axiom's existing management team, led by Juan Caceres as President of Axiom Infrastructure Europe, have moved to London and will be the culture carrier for the firm on the ground in Europe.

Juan has been a leader of Axiom from the firm's inception in 2009. He has since led Axiom's Toronto office, successfully investing in a diversified portfolio of core infrastructure assets. Ivan Tagarov, Vice President & Associate Investment Director, will also be moving from the Axiom Toronto office to London. Ivan joined Axiom in 2016 and has been primarily responsible for supporting transaction due diligence and execution as well as asset and fund valuation.

Joining Juan and Ivan will be a recent addition to the Axiom team, Emmanuel Lejay as Senior Investment Director. Emmanuel has been working in the infrastructure space since 1995. He was previously Executive Director Infrastructure Investments at Swiss Life Asset Management. The Axiom team has had the pleasure of working with him over the years. Emmanuel has strong European market knowledge and expertise, built over two decades of direct investing in the infrastructure sector. He brings a critical contribution to the successful deployment of Axiom's investment activities across the diverse European countries. Axiom is in the process of recruiting additional Europe domiciled infrastructure professionals and plans to grow the team as the European portfolio grows.

Axiom's existing North American operating platform and resources (asset management, tax, reporting, legal, human resources, investor relations, information technology) will provide support to the European-based team.

This notice is not an offer to sell, or a solicitation of an offer to purchase, any securities; all securities are sold by the applicable fund solely through its Offering Memorandum.
