AXIUM INFRASTRUCTURE ACQUIRES EQUITY INTEREST IN AN ON-CAMPUS STUDENT HOUSING PROJECT AT THE UNIVERSITY OF KANSAS

New York, NY (November 3, 2026) – Axium Infrastructure (Axium) is pleased to announce that one of its managed funds has agreed to acquire a 95% interest in an on-campus student housing project currently under construction at the University of Kansas, located in Lawrence, Kansas.

The project will consist of a purpose-built undergraduate student housing community across two residential buildings comprising 199 units and 482 beds in the KU Gateway District. Construction of the project started in June 2026, and the buildings are expected to welcome students for the 2028-29 academic year.

The project will operate under a 99-year Air Rights Lease with the University of Kansas and its affiliates for development and operation of purpose-built student housing. Asset Living has been retained as property manager and will lead leasing efforts, as well as oversee staffing, facility maintenance, billing and collections.

“We are delighted to partner with the University of Kansas and Edgemoor/Sunflower team on a project that is creating additional housing capacity which will serve students for generations to come,” said Thierry Vandal, President of Axium Infrastructure US Inc. “This investment further strengthens Axium’s growing social infrastructure portfolio in the United States and demonstrates our commitment to investing in essential assets that support both academic institutions and their students,” added Mr. Vandal.

About Axium Infrastructure Inc.:

Axium Infrastructure (comprised of Axium Infrastructure Inc. and its affiliated entities) is an independent portfolio management firm dedicated to generating long-term investment returns through investing in core infrastructure assets. Axium Infrastructure had over US$10 billion in assets under management as of June 30, 2026, as well as approximately US$2 billion in co-investments. With offices in Montreal, Toronto, Vancouver, New York, and London, the firm benefits from the capabilities of a group of specialists with decades of experience acquiring, developing, financing, operating, and managing infrastructure assets. Focus is placed on assets that are supported by robust market demand and under long-term contract with creditworthy counterparties. Since 2010, the firm has invested in a diversified portfolio of over 310 infrastructure assets. For further information, including information about other infrastructure assets the firm has invested in, please visit www.axiuminfra.com. This release is for informational purposes only and does not constitute an offer or solicitation to buy securities of any entity.
